The following is an examiner's statement of reasons for allowance:

A close prior art, Merchant (U.S. Patent No. 5,246,870 disclosed by Applicants), discloses most of the limitations of the claims, but fails to show at least an N-type layer having a concentration higher than a concentration of an N-type layer in contact with the p-body layer, formed in a region covering at most 95% of the source-drain distance or an N-type layer wholly in contact with a buried oxide film, immediately under the n-body layer has a concentration from $3 \times 10^{16}/\text{cm}^3$ to $1 \times 10^{22}/\text{cm}^3$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
